

Your wedding day is one of the most important events in your life! We understand that it can be confusing to shop for a wedding photographer. To make your life easier, we offer you several options so that you get the best quality of service and value in your wedding experience.

In order to provide you with the right solution for your wedding day, we have designed our packages around two types of weddings: Long (more than 5 hours, two locations), and Short (5 or less hours, typically one location). On the next two pages, we will explore the various packages that we offer for both Short and Long weddings.

We are professional photographers. We use high quality cameras, lenses and lighting, and utilize 100% digital capture, edit and print processes. We edit every image before you see it, regardless of whether you order a digital or print package. We offer free online proofing using password-protected web albums for you, your out-of-town guests and relatives. We use only the best professional printing labs, and routinely attend seminars and conventions to keep our skills sharp and contemporary.

You can see that we do much more than “shoot and burn!” Over the years, we have printed thousands of images and have a reputation for our creative photography, editing and printing. We routinely produce books, canvas works, specialty items and multimedia slide shows for our customers. Check out our reviews for input from some of our customers!

We know that we are not the lowest price photographer in town. We deliver superior products, backed by years of experience and many, many satisfied customers. We work a limited number of weddings each year, and focus on clean, artistic and creative imagery and products, just for you!

Here are a few questions that may help you narrow down your photography needs:

1. Is your wedding short or long (5 hours)? One location or more?
2. Are you interested in having the digital image files from your wedding?
3. Are you interested in prints, wedding albums and multimedia slide shows?
4. Would you rather pick out your print options individually, or choose from a package?

These questions should help you to select from our many wedding photography packages.

## Our Booking Policy

We receive many inquiries for our wedding services. While we would like to accommodate every couple, the reality is that we can only work one wedding each weekend. If you ask about our availability, we will tell you whether anyone has committed that date to us. However if the date is available at the time you call, there is a chance that someone else may book it shortly thereafter.

In order to be fair to all potential customers, our policy is that we commit the date to the first couple who commits to us with a deposit. So if you are shopping around for a photographer, you may lose the opportunity for us to become ***your wedding photographer*** if you delay in making your decision.

### Payment considerations for all wedding packages and options:

- A non-refundable reservation fee of \$300 is required to hold the date.
- Balance of package/option shall be paid within 30 days of the wedding.
- Cash, check and credit/debit card payments are accepted.
- Add-ons for any packages can be ordered after the wedding.
- A contract will be signed by Bride, Groom and us to solidify the agreement
